## **DETAILED ACTION**

### ***Priority***

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

### ***Information Disclosure Statement***

The information disclosure statement (IDS) submitted on 11/14/03 has been considered by the examiner.

### ***Additional Prior Art Cited***

Motoi discloses a multi-beam scanning apparatus having a plurality of light receiving portions (sensors) for detecting positions of the light beams.

### ***Allowable Subject Matter***

Claims 1-17 are allowed.

The following is an examiner's statement of reasons for allowance: None of the cited references teaches or suggests an optical scanning apparatus comprising the structure specified in claims 1 and 7; particularly, a plurality of light receiving portions (note: in light of the specification the "light receiving portions" are nothing else but light receiving sensors) arranged with a predetermined space between them in a sub-scanning direction of the multi-beam without being overlapped with each other; and

Art Unit: 2872

each of the plurality of light receiving portions has a shape so that edges of the plurality of light receiving portions on a start side in a main scanning direction are parallel to each other, edges of the plurality of light receiving portions on an end side in a main scanning direction are parallel to each other, and edges on the start side and the edges on the end side in a main scanning direction are not parallel to each other (claims 1 and 7, last paragraph). Claims 2-6 and 8-17 are independent claims and thus allowable at least for the same reason.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
